

# Wound Awareness

Follow the gold standard in preventing and managing wounds by integrating a multi-disciplinary team approach

**500,000**

Australians are living with a chronic wound at any given moment

**Every 3 hours**

one Australian loses a lower limb due to diabetes related foot disease

**Up to 70%**

of chronic leg ulcers will recur in some patients for 15 years or more

**84%**

of chronic wounds in hospital and residential care settings comprise of pressure injuries

**It's time to  
take action!**
